

THE GRENADA SENTINEL

VOLUME LXXXVI

GRENADA, MISSISSIPPI, FRIDAY, SEPTEMBER 16, 1938

NUMBER 17

GRENADA CITY SCHOOLS

OPENED SEPTEMBER 12TH

Once again the doors of the Grenada City Schools swung open on Monday morning, September 12th, the students, some old, some new, assembled to begin another year of study and fellowship.

Meeting together for the first time in the auditorium, the faculty and pupils officially began the 1938-1939 school year. To the new students, those from other schools and the freshmen, Mr. Rundle extended a welcome; these, now a part of the "Grenada High family", we all want to welcome. The faculty has two changes. Amid a general craning of necks, Mr. Rundle introduced our new Biology and Home Economics teacher, Miss Williamson, of Meridian. Mr. Watson, of Kentucky, succeeds Miss Sullivan in the commercial department.

To make school what it really is, Miss Hattie Hammond, the study hall supervisor, took charge and explained the fundamentals and inner workings of the institution. Listening were:

The Freshmen, very new and a little apprehensive as to just what was expected of them. Though a little insecure, they managed very quietly to inquire the correct routes to different classes.

The Sophomores—a lofty group, secure in the knowledge that they are past the critical stage and very eager to be bureau of information to the wandering freshmen.

The Juniors—a jolly group, a little scornful, perhaps, knowing that next year will be the "appointed time."

Finally—the Seniors, a dignified group, who in spite of all their former accomplishments, realize all too well that the last year will be the final trial.

Some with alpha, some with eagle, the classes of G. H. S. started their year. It was possible for class work to begin the very first day, since detailed organization had been taken care of during some two weeks of previous classification and room placements. This is a fact that Grenada should be proud of, since such smooth movement does not prevail in many schools of this size.

The public is welcome to visit the school.

Grenada City Schools Faculty, 1938 - 1939

John Rundle, Superintendent.
High School
J. C. Hathorn, Science, Principal and Coach.
Miss Hattie Hammond, Study Hall Supervisor.
Miss Estelle Turner, English.
Miss Merle Barnett, Home Economics.
Miss Mary Haynes, Mathematics.
Miss Adelle Shows, Commercial.
Miss Imogene Williamson, Home Economics and Biology.
Miss Lucile Owen, Social Science.
Miss Mary Stephenson, English and History.
John W. Watson, Commercial and Mathematics.
Miss Sarah McKibben, Librarian.
Miss Lucile Pierce, Latin and French.
Miss Keith Black, Music.
Roger Dollarhide, Band.
Mrs. J. C. Hathorn, Expression.
Elementary School
Miss Lizzie Horn, Principal.
Miss Addie Barrow, Study Hall Supervisor.
Amos J. Slaton, Science and Coach.
Miss Virginia Clement, Social Science.
Fay Jordan, English and Coach.
Miss May Boswell, Junior High Mathematics.
Miss Mary Phillips, 6th Grade.
Miss Jewel Hines, 6th Grade.
Miss Annie Strahan, 5th Grade.
Miss Vivian Williams, 5th Grade.
Miss Nancy Halbert, 4th Grade.
Miss Ouida Ellzey, 4th Grade.
Miss Blanche Batton, 3rd Grade.
Mrs. H. O. Thompson, 3rd Grade.
Mrs. Johnnie Wylie, 2nd Grade.
Miss Albert Johnson, 2nd Grade.
Miss Ruby Hard, 1st Grade.
Miss Mabel Walker, 1st Grade.

Claude Perry Entertained Host Of Friends With Stew

Just An Evening Of Quiet Enjoyment And Wholesome Recreation

Monday night Mr. C. A. Perry was host to a party of friends at his farm two miles west of Grenada. The occasion had no special significance. Mr. Perry said that he merely wanted to have friends about him and wholesome recreation and wholesome recreation.

Brunswick stew, prepared by Harry Mills, negro, well known to most Grenadians for the delicious stews that he has prepared on many occasions, was served. And there was plenty of it. As many as six bowls brimful of this hot, well seasoned stew was consumed by some of the guests.

Among those present were Mr. Perry's son, John Rufus Perry; his son-in-law, Erwin Johnson, and John Pressgrove, Rev. C. S. Liles, J. D. (Snip) Crenshaw, Leonard Holland, Dennis Parks, Dr. Cecil Smith, R. W. Sharp, Dr. J. K. Aven, H. J. Williams, J. E. McEachin, E. M. Whitaker, Robert Anderson, E. C. Thompson, Rev. Glen Wiley, L. G. Roberts, O. R. Lilly, H. J. Ray, Dr. R. A. Clanton, T. G. Bowen, Dr. S. B. C. Jay Gore, John Huffington, Keene Rutherford, T. B. Revell, Jr., Jim Cuff, Huffington, Harry Greenfield, and Rice Lawrence, all of Grenada, and W. G. Osborne, of Jackson.

Mississippi Farmers Benefit From Federal Programs

Jackson, Miss., Sept. 15—During five years, 1933-1938, the Federal Government in cooperation with state, county and municipal bodies has certainly been active in recovery program efforts in Mississippi.

Summarizing some of these efforts, Hon. Dennis Murphree of the National Emergency Council said today that through the Federal Land Bank and Land Bank Commissioner, the Farm Credit Administration during this five year period has made 14,448 long term amortized loans to farmers on farm real estate in Mississippi. At the same time, 81,418 crop producing loans have been made through the Emergency Seed and Feed Loan section to Mississippi farmers, and 53,079 crop and livestock loans have been made through the Production Credit Association located in the state.

The Farm Security Administration during the same period has made loans or subsistence grants through its Rural Rehabilitation Division to 28,711 needy farm families in Mississippi.

The Land Utilization Division (formerly the Resettlement Administration) has established two projects. One of 89,500 acres is located in Choctaw, Oktibbeha, Winston and Noxubee counties. The other the Natchez Trace Project which consists of 29,000 acres and is located in Chickasaw and Pontotoc counties. Over 560 families are being relocated on the Northeast Mississippi Project and about 180 on the Natchez Trace Project. Most of the lands of these projects, however, will be converted into forestry, recreation and wildlife conservation.

The Soil Conservation Service has been of much benefit in the state through its program of soil erosion control, forest fire prevention, and reforestation.

The Agricultural Adjustment Administration has had much to do with agricultural changes since March, 1933. Under this program, 316,823 crop adjustment contracts for Mississippi farmers were accepted by the AAA. Of these contracts, 314,231 were cotton contracts, 604 corn-hog contracts and 1788 cane syrup. Under these contracts many acres were shifted from soil depleting cash crops to other crops of soil improving nature.

GAME WARDENS TO GET UNIFORMS

Jackson, Miss., Sept. 15—Mississippi's game wardens are being outfitted in olive drab uniforms.

Announcement of the State Game and Fish Commission to place the men in identifying uniforms followed the annual fall meeting of the commissioners and the wardens.

A two-fold purpose will be served under the new regulations. The wardens can be easily identified by sportsmen and added dignity and force will be given their positions.

Since creation of the commission in 1932 the wardens have not had a standard type uniform for identification purposes. With other states taking the lead in placing the wardens in uniforms, Mississippi has only recently been in position to equip its men in kee-

The standard uniforms will consist of a coat or jacket, two types trousers, slacks and breeches for use with leggings, and a wide brimmed hat.

By the time the hunting season gets in full swing next month, the wardens are expected to be in

the field with their new outfits.

Dove season opened September 1 for all counties north of U. S. Highway 80, and will continue through until the end of the month. After a closed period, the season reopens in the northern sector on December 20 to run until January 31.

Dove hunting in the southern tier of counties, those south of U. S. Highway 80, does not begin until November 20 and will continue through January 31.

The squirrel season opens October 1 to run through December 31. Counties not included in the early opening are Walthall, Marion, Lamar, Forrest, Perry, Greene, Pearl River, George, Harrison, Hancock, Stone and Jackson, where the season opens Nov. 1 and continues through Dec. 31.

Thanksgiving Day is the new season opener on quail. It ends January 31. The daily bag limit is 12 with 24 allowed in possession. Seasons on doves and ducks were recently announced by the Bureau of Biological Survey, which fixes the dates, Rail and gallinule became subject to hunt-

ing Sept. 1 and will continue so until Nov. 30.

Hunting of ducks, goose, brant, coot, Wilson's Snipe (jacksnipe) opens Nov. 15 through Dec. 29.

With seasons opening, Director Si Corley of the game and fish commission, has called attention to the statewide hunting license of \$3.25 which permits hunting in all sections. The county license is \$1.25.

"Sportsmen are purchasing the statewide license because of the slightly higher cost and the increased advantages it carries," Director Corley said. "With the statewide privilege, hunters are not bound by county lines."

Members of the commission attending the recent state conference were Chairman W. E. McIntyre of Brandon; Vice Chairman George Weathers of Greenville; Secretary Ben M. Stevens of Rickton; Col. Rueben R. Banks of Columbus, and Col. Edgar W. Wright of Centerville.

W. F. Dearman, assistant director, attended and also addressed the wardens.

Botelers Awarded First Place At The Tri - State Fair

Chosen To Represent Mississippi In Five State Competition

The booth of Mr. and Mrs. E. L. Boteler was awarded first prize at the Tri-State Fair in Memphis, Monday, in a contest between seven other farmers chosen from the states of Alabama, Tennessee, Arkansas and Missouri. Mr. and Mrs. Boteler were the only representatives chosen to represent Mississippi.

The booths represented diversification and the live at home farm program.

Mr. J. L. Cooley, County Agent, and Miss Lottie Wood, Home Demonstration Agent, assisted preparing the booth for the public and The Sentinel congratulates all who had a hand in making this victory possible.

Notice To Water Consumers

At the regular September meeting of the City Council it was ordered that the reduced water rate to domestic consumers which has been in effect on bills payable on and after June 1, and was to have been discontinued October 1, be extended to November 1.

The meters are read on the 20th of each month and bills are payable on the first of the month following. After the reading of October 20 the regular water rate will prevail.

Highway Patrolmen Commended

(Editor's Note: The Sentinel is publishing a letter (in part) received by one of the highway patrolmen working out of Grenada as it shows that their good work is appreciated.)

DR. PAUL R. GOOGE
Surgeon
Tallahatchie Hospital
Charleston, Miss.

August 10, 1938
Patrolman M. A. Wilson,
State Highway Department,
Grenada, Miss.

Dear Wilson:
First, let me congratulate you and Tatum on the prompt attention you gave the wreck occurring on the night of August 9, 1938, at the Junction of 32 and 51 1/4 mile east of Oakland. Such efficiency and the courteous way you did your errand makes me feel that we have something, and this is the opinion of those with whom I have talked since that day.

Paul R. Googe, M. D.

Greenwood Train Hits Auto Here Wednesday P. M.

Two Confined To Grenada Hospital After Collision on Commerce St. Crossing

An automobile driven by T. P. Marshall, of N. Carrollton, was struck by the westbound Y. & M. V. train Wednesday afternoon at 4:45 o'clock at the Commerce Street crossing on Highway 51.

The train was in charge of conductor J. C. Richardson. T. G. Patterson was engineer.

Occupying the car with Mr. Marshall, were his daughter, Miss Beatie Marshall, also of North Carrollton, and Mrs. A. R. Smith and baby, of Raymond. Miss Marshall, the most seriously injured, received a fractured hip and body bruises. Mrs. Smith received a fractured collar bone. Both are confined in Grenada Hospital. Mr. Marshall received minor injuries. Mrs. Smith's baby was unhurt.

R. W. Provine Pays The Sentinel A Visit

Mr. R. W. Provine, chemist with the Mid-Continent Petroleum Corporation, of West Tulsa, Okla., and former Grenadian, honored The Sentinel with a visit Saturday and paid up his subscription. Mr. Provine has been spending a two weeks vacation in Grenada and advised The Sentinel that his brother, James, who is also out in Oklahoma, was disappointed that he was unable to make the trip to Grenada with him at this time.

INTERESTING LETTER FROM CHAPLAIN N. B. SAUCIER

George Parker To Direct Operations Division For WPA Assumes Duties Of T. G. Gladney, Former Director Of The Division

Jackson, Miss., Sept. 13—George Parker, WPA Assistant Administrator, has been placed in charge of the engineering functions of the Works Program to assume the duties of Mr. T. G. Gladney, former Director of the Division of Operations, who is leaving the organization, it was today announced by Mr. R. B. Wall, Deputy Administrator in Charge. Major Parker will continue to serve as Assistant Administrator, a position to which he was recently appointed. He has a long record of engineering experience in the Army, in the Public Health Service, and as Chief Engineer of the Emergency Relief Administration in Mississippi.

Mr. Wall commented that the Operations Division change had been made because it was believed in the best interest of the organization. He added that no further major changes are contemplated.

Five Fold Increase Signifies Return Of Oats To Farm Favor

Oat production, increased nearly five-fold during recent years, is fast coming to the front as a secondary source of feed and may ultimately be the means of supplying Mississippi's customary feed deficiency. No other crop has increased as rapidly, official statistics show.

The Standard crop on farms in all sections of Mississippi since earliest days, oat production probably reached its lowest ebb just a few years ago. As recently as 1933 there were only 21,000 acres of oats in the entire state and at the low yield of 16 bushels per acre, the total production was only 336,000 bushels. More recently the picture has changed.

During 1937 the production of oats in Mississippi totaled 1,428,000 bushels and in 1938 the turnout was 1,540,000 bushels. Not only has the total yield been increased almost five-fold, but the average yield per acre has been almost doubled, rising from 16 bushels per acre in 1933 to 28 bushels per acre in 1937 and 27 1/2 bushels per acre in 1938. Earlier planting, better seed, dressing with nitrogen fertilizer in early spring, better land preparation, are reasons cited for the decided increase in the turn-out of oats per acre.

Corn is the outstanding feed crop produced in Mississippi, not taking into consideration the seed produced as a by-product of cotton, and while corn production has substantially increased during the same period, the percentage of increase is far lower than the percentage of increase in oat production. During the ten-year period 1927-36, the average yield of corn was 14.5 bushels per acre, which is slightly more than one-half the average per acre yield of oats.

"While it is not to be suggested that oats supplant corn as a principal source for feed for livestock," commented J. C. Holton, commissioner of agriculture, "there is a place and a need for oats on farms throughout Mississippi which far exceeds the present supply."

"Oats mature when customary feed supplies are lowest. They serve well as nurse crops for soil building legumes. They diversify production and thereby make an adequate supply of feedstuffs less dependent upon weather conditions. Year in and year out, more oats on Mississippi farms would mean more farm profit, better fed livestock and continued farm progress."

Monticello, Ga., Sept. 7, 1938.
Dear Friends:

This morning I am in one of my colored camps, SCS-12, Monticello, Ga. We are having a slow rain here today that is very much appreciated by the farmers. This camp was wrecked by a little storm about ten days ago. Up until then it was one of my best camps. I have two colored camps in this sub-district. I always enjoy my visits to them. The two officers in this camp are of the highest type. Captain T. P. Crane, of Birmingham, is in command. He is the noted Fennie Crane, well known to Alabama football fans of a few years ago. He played with Auburn. Lt. H. E. Savely, the junior officer, is from Pontotoc, Miss.

I came to this camp from Macon, Ga., yesterday afternoon where I spent a most pleasant week-end. We also have a Mississippian there serving as junior officer—Lt. Malcolm G. Gray, from Lexington, Miss. Lt. Gray is an alumnus of Miss State where he played football for four years and finished with honors in his scholastic work. While at that camp over the week-end I visited a few of Macon's many educational and benevolent institutions. Sunday afternoon I visited the Bibb County Home where I spoke to the inmates. On Monday I saw the city's Open Air School for tubercular children and also the Masonic Orphanage. On the same trip we saw the old home of Sidney Lanier, a southern poet. Macon is also the home of Harry Stilwell Edwards, author of Aneas Africanus and many other popular novels. Mr. Edwards won a nice prize on one of his books several years ago. But at present I cannot recall the title of the book. He is still living and can get around a little but is quite feeble. On our tour of the city we drove through the campus of new Wesleyan College. It is about seven miles out of the city and is one of the most beautiful schools I have seen. All the buildings are new and modern in design. Perhaps you know this is the oldest female college in the world. Finally we climaxed our trip by seeing Mercer University. The outstanding feature of that school, on casual inspection, is their library. It is in a new building and is one of the most extensive libraries I have seen in a school of that size. Mercer is the Georgia Baptist College. They have a small School of Theology as part of the University.

Georgians are having lovely weather for harvesting their cotton and hay crops. They are getting it out in a hurry. I trust that the Mississippi crop is turning out better than this in Georgia. This is a soil conservation camp and the farmers have profited very much by the help rendered by the camp workers. I would like to see a soil conservation camp in Grenada county.

I would be delighted to hear from any of my Sentinel reader friends by personal letter and will promise to reply to all letters received. My kindest regards and very best wishes to all you youngsters who have gone away to school.

Sincerely yours,
N. B. Saucier,
Chaplain in CCC,
SCS-6, Sparta, Ga.

Notice

The law requires that all home owners seeking tax exemption under the Home Exemption Act, passed by the recent session of the Legislature, execute home exemption forms. These application forms must be filled out by the home owner and must be signed by him.

A separate application must be made with the City and the County.

All home owners in the city of Grenada are urged to call at the City Hall and attend to this matter promptly. Claims for exemption filed after September 30 can not be allowed.

Respectfully,
E. C. NEELLY, Mayor

To The People of City of Grenada and Surrounding Territory:

We appreciate all kindness and courtesies by the public. The hospital is a place for sick folks and it is a pleasure for us to take care of them. It is not a place for drunks and for them to get off a drunk so please do not bring them to the hospital from now on. Please govern yourself accordingly.

GRENADA GENERAL HOSPITAL

J. K. AVENT,

F. S. HILL,

"Behind The Scenes In American Business"

New York, Sept. 16—BUSINESS (By John Craddock)

Industrial production went into a nose-dive just about one year ago. Instead of having the customary seasonal business spurt last fall, the country entered a new depression which persisted for ten months. Not until July, 1938 did the clouds begin to lift. Further clearing of the skies occurred in August, and by now the frown has disappeared from the brow of most business forecasters. Their prediction for fall and winter business is "fair and warmer". The outlook is excellent, they say, the more so because there is much lost ground to be made up. Factory sales of automobiles, for example, amounted to only 1,345,311 the first seven months this year compared with 3,227,266 in the same period last year. This means that the average life of all automobiles

on the road has been increasing during 1938, and a potential demand is being stored up which sooner or later must assert itself. Estimates of national income, represented by the flow of wages, salaries, dividends, interest and profit of individual owners of businesses, for 1938 have been revised upward a billion dollars by the Department of Commerce to \$81,000,000,000 as a result of trade improvement since June. This figure, however, falls almost 12 percent below last year's \$99,000,000,000 national income.

WASHINGTON — One of the liveliest issues the next session of Congress will have to deal with, in the opinion of observers here, is a matter which is going to hit the average man in the place that hurts most — his pocketbook. The federal government has had a de-

ficit every year since 1930, and more taxes are needed. Recently, the Treasury Department drew up a schedule of income tax rates that would be necessary to increase government revenues \$2,000,000,000 annually, a figure which would still leave the government from \$1,500,000,000 to \$2,000,000,000 in the red this fiscal year and the two succeeding ones. According to the Treasury estimates, the normal income tax rate for individuals, now four per cent, might have to jump to 10 per cent if Congress does vote to increase revenues by \$2,000,000,000. This would be politically unpopular, however and is therefore likely that any tax rate increases on individual incomes would be applied in easy stages rather than all at once. A ten per cent normal tax rate, if it ever became law, would mean that a single man who earned \$50 a week last year and paid a federal in-

come tax of \$22.40, would be called upon to pay a tax of \$56 annually.

NEW MODELS — And speaking of automobile factory sales, sweeping design and mechanical changes embodied in 1939 models, to make their public debut in about two months, are expected to create a sharp sales increase for this industry. Say advance reports from Detroit and Toledo: "Bodies generally will be wider and larger. Greater visibility is being obtained by the use of wider and deeper windows and windshields. Plastics will find increased prominence in interior body hardware and trim. Half a dozen makes will provide of-the-floor gear shifts as standard equipment. Prices will be about the same as for 1938 models." Almost coincident with these reports was a statement issued by Connecticut's Motor Vehicle Commissioner, Michael A. Connor, who, in the in-

terests of safety, long has advocated better visibility in motor cars. With a word of praise for motor manufacturers who have responded to the public's demand for better visibility, he predicted that less accidents and increased driving pleasure would follow the use of more glass in the new models.

THINGS TO WATCH FOR —

Brushes made of plastic material instead of hog bristles! The plastic is said to last longer than real bristles. . . . New cocktail shaker dishes which prevent leakage from over-zealous mixers; they are made of a synthetic, rubber-like material called koroseal that outlasts ordinary cork. . . . Cellophane-like sheets and photographic film made from leather scrap and waste. . . . A shirt designed so that suspenders can be worn concealed beneath it. . . . A device which automatically raises and closes all the windows of a automobile when the key is turned in the lock of the car door. . . . Beer brewed from sweet potatoes; fermentable syrup from the potatoes is said to be better than corn sugar or syrup heretofore used in beer-making.

HEADLINES IN NEW YORK

Butter prices drop to 1934 levels as supplies reach new high. . . . U. S. and Great Britain reported near accord on reciprocal trade agreement. . . . Factory payrolls in nation rise 0.4 per cent in July, reversing previous downward trend. . . . Sales of office equipment gain in August. . . . Secretary of State Hull demands Mexico settle for land seizures under international law. . . . Drug and chemical industry will spend \$24,943,500 for research and scientific development of new products this year. . . . WPA employment now 3,038,906, an all time peak. . . . New synthetic textile fibre being developed by E. I. du Pont de Nemours & Co. may threaten remaining market for natural silk. . . . Canada refuses to join U. S. in wheat sales plan; will adhere to its present export subsidy to market surplus. . . . Despite record flow of deliveries, unfilled orders of aircraft industry are 15 percent higher than on January 1. . . . Large rise in index of industrial output by October seen by the Federal Reserve Board.

TREASURY DEPARTMENT.

Office of District Supervisor, Alcohol Tax Unit, Bureau of Internal Revenue, New Orleans, Louisiana, September 9, 1938. Notice is hereby given that on May 26, 1938, one 1932 Chevrolet Coupe, Motor No. 3323217, with accessories, was seized in Carroll County, Mississippi, for violation of the Internal Revenue Laws, to-wit: Section 3450, United States Revised Statutes. Any person claiming an interest in said property must appear at the office of Investigator in Charge, Alcohol Tax Unit, 1002 Deposit Guaranty Bank Building, Jackson, Mississippi, and file claim and cost bond as provided by Section 3460, United States Revised Statutes, on or before October 10, 1938; otherwise the property will be disposed of according to law. S. N. Collier.

EXECUTORS' NOTICE TO CREDITORS

The undersigned having been appointed as executors of the last will and testament of D. O. Semmes, deceased, on the 8th day of September, 1938, by the Chancery Court of Grenada County, Mississippi, hereby give notice to all persons having claims against said estate to have same probated and registered by the Clerk of said court within six months and that a failure to probate and register said claims for six months will bar same.

Witness our signatures this 8th day of September, 1938.
ZAC SEMMES,
RAPHAEL SEMMES,
Executors.

BABIES CONTRACT T. B. THRU DRINKING MILK

Wrestling with the problem of health protection for fifty counties of the state which do not have full-time departments, Dr. J. A. Milne, Director of County Health Work, State Board of Health, points out the grave risks to which citizens in these counties are subjected.

Dr. Milne cites instances where children are strangled by preventable diphtheria for lack of immunization, where babies contract tuberculosis through drinking milk from tuberculous cows, where victims come down with typhoid fever due to infection by unexamined food-handlers. He points out cases where syphilis is spread in whole households by servants with an acutely infectious stage of this disease and with no knowledge of diagnostic means or treatment, where mothers die needlessly in childbirth because of inadequate prenatal care.

"These tragedies occur much more often in counties not having the services of a full-time health department," Dr. Milne states, "and their likelihood is reduced enormously where full-time public health workers are constantly on the job to protect the citizens of the county."

Showing how a full-time health department may be obtained, Dr. Milne says the usual first step in securing the establishment of a county health department is to conduct a campaign of education in the county to show the advantages and economy of public expenditures for this purpose. In most communities there is a large latent sentiment favoring public health work. This sentiment should be activated and vocalized. The physicians of the county should be informed of the project and their assistance solicited. Frequently there are volunteer health organizations which will

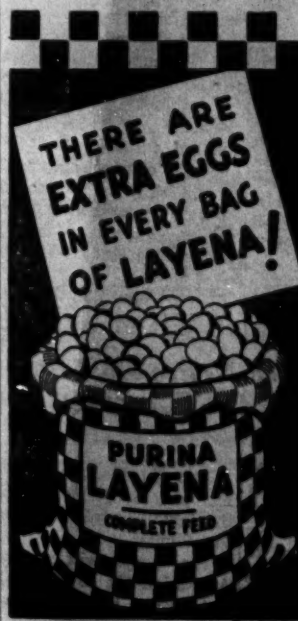

actively support and actively foster the plan. Women's organizations, luncheon clubs, chambers of commerce, farmers' organizations, labor unions, educational associations, and other organizations may help to secure the establishment of a health department. In any event, when sufficient number of citizens is convinced of the desirability of having a health department, a hearing should be had before the county authorities and a personal request made for the adoption of the plan and for the appropriation of necessary funds.

"The State Board of Health will assist any county in creating favorable sentiment for a full-time health department," Dr. Milne states. "There are still fifty counties in the state without this vital protection. It is hoped that this will not be long in coming when the citizens of every part-time county rise up and demand what rightfully belongs to them—the protection of a full-time county health department."

W. K. Huffington**NOTARY PUBLIC****Grenada Trust & Banking Co.****Phone 6****JACKSON****DAILY NEWS****Delivered To****Your Door****ROSE CAFE****Proposed Budget Grenada County, Fiscal Year 1938-1939**

Upon motion of L. P. Horton, seconded by G. E. Chamberlain, it was ordered that the following proposed Budget of Grenada County, Mississippi, for fiscal year 1938-1939 be adopted as follows, to-wit:

I see from a test at one of the Agricultural Experiment Stations that lime and phosphate increased grass yields 200 per cent.

1. THAT ELECTRIC LIGHT MAKES THE AVERAGE HOME AS BRIGHT AS DAY. The light in the shade of a tree on a sunny day in summer often measures 1000 footcandles (or light units). Yet the light in the average living room at night is often under five footcandles! So indoor lighting has a long way to go before it can approximate daylight.

2. THAT HUMAN EYES ARE MADE FOR CLOSE SEEING. Human eyes were developed through countless centuries of outdoor life in plentiful light. Eyes were used mostly for distant seeing. Only recently has man been using his eyes for unnatural, prolonged, close-seeing tasks, all too often in poor, insufficient light.

3. THAT PROGRESS IN SCHOOL DEPENDS ON A CHILD'S MENTAL ABILITY ALONE. Careful tests have proved that proper classroom lighting can have a real effect on the achievement of students. Many a "nervous," "difficult," or "backward" child is simply a normal child tormented by the strain of reading or studying under inadequate light.

4. THAT GOOD LIGHT IS NOT SO IMPORTANT IF YOU WEAR GLASSES. Proper lighting means less strain on eyes, nerves and body. Tests show that good lighting is even more important to people who wear glasses than to people with normal vision.

5. THAT YOU CAN ALWAYS TELL WHEN YOU STRAIN YOUR EYES. Our eyes are long-suffering and often don't tell us immediately when they are being cheated of light they need for easy seeing. But you may feel the effects of eyestrain in other ways.

6. THAT GOOD LIGHT IS EXPENSIVE. An average living room (13' x 20') with light wallpaper can be well lighted for the evening needs of a family of four with a total of about 200 watts. The average cost is only slightly more than 3 cents per person per day. Good light is inexpensive.

Merchandise Will Be Cheaper This Fall

Many times in the past we have advertised that merchandise for the approaching season would be higher, but we are happy to say at this time that what we have on contract for early Fall delivery will average at least 8% less than for the past two seasons; either in better values for a standard selling price or cheaper prices where there is no set price to be maintained.

Many consumers, as well as manufacturers and distributors, feel that prices will surely advance again before the close of the year. Regardless of this, the purchases we have made will be passed on to you as long as they last at the reductions we have received. If reorders are higher, we will, of course, have to get the advance. Until then, you can be assured that these reductions will be reflected in our retail prices.

Fall shipments are now being made and we are receiving one or more daily. It will be a pleasure to have your interest in these selections from time to time and as often as you care to look.

Mrs. Garner Entertains Club

On Friday afternoon Mrs. S. H. Garner was the charming hostess to her bridge club in her attractive home on Snider Street. Bright fall flowers were artistically arranged throughout the reception room.

Mrs. Walter Garner was the fortunate winner of high score prize, a handsome black suede purse.

Mrs. Garner had as her extra guest for the afternoon Miss Lucy Craddock, of Jackson, sister of Mrs. Rogers Burt. Tempting stuffed tomatoes and iced Coca-Cola were served at the close of the games.

Mrs. C. S. Burt was a Memphis visitor Tuesday of this week.

Mr. and Mrs. Leighton Finney left Wednesday for South Mississippi to attend the funeral of their cousin.

Mr. Cas Heath left Tuesday morning for Hot Springs, where he will vacation for several weeks.

Mrs. D. L. Fair, of Louisville, was the guest of her daughter, Mrs. R. G. Brown Tuesday and Wednesday of this week.

Mrs. Ben Kavanaugh, of Winona, is visiting her mother, Mrs. E. L. Wilkins, this week.

Mrs. C. E. Lockett has had as her guest for the past week, her attractive niece, Mrs. DeWitt Holliday, of Madison.

Mrs. C. C. Provine returned Tuesday from a week's visit with her daughters, Mrs. Joe Kirby, of Sanatorium, and Mrs. Julius Burghard, of Clinton.

Miss Peggy Spain left Saturday to enter Stingley's Laboratory of Technicians at Meridian, Miss. Her parents, Mr. and Mrs. H. B. Spain, accompanied her to Meridian, returning via Jackson where they visited Mr. and Mrs. H. T. Pope.

Miss Ethel George leaves today for the University of Mississippi, where she will be a student this winter. She will be accompanied by Mr. and Mrs. J. J. Nichols.

Miss Lucy Craddock, of Jackson, visited Mr. and Mrs. Rogers Burt last week. Miss Craddock is Mrs. Burt's sister.

Misses Ouida Ellzey and Mary Haynes returned Saturday to resume their duties in the Grenada public school.

Mrs. J. E. Stokes, of Sulligent, Ala., who has been visiting her daughter, Mrs. Durrow Horn, returned to her home the first of the week. She was accompanied by Mr. Horn and son Clyde, who returned via State College where Clyde remained to begin his studies for this winter.

Mullin-Honeycutt

A wedding of much interest was solemnized Sunday night, September 11, 1938 at Sardis, Miss., in the First Presbyterian Church, when Miss Frances Honeycutt became the bride of Mr. Pat Mullin, the Rev. Pat Easterling performing the impressive ceremony.

Mrs. Mullin is the charming and talented daughter of Mr. H. L. Honeycutt and is a graduate of the Grenada High School and Grenada College. Mr. Mullin, who is the son of Mrs. R. W. Mullin, is a graduate of Grenada High School, later continuing his education in New York.

Mr. and Mrs. Mullin are from two of the most prominent families of Grenada county and have a wide circle of friends here. They will make their home in Portageville, Mo., where Mr. Mullin is employed.

Circle No. 1 Meets

With Mrs. G. W. Butler
Circle No. 1 of the Methodist Women's Missionary Society met in the home of Mrs. G. W. Butler Monday afternoon with ten members and two visitors present.

After the business session, plans were made for the study of the new book, "The American City and Its Church."

The hostess assisted by her daughter, Mrs. Steele, served a delicious refreshment course of sandwiches, cookies and iced tea at the conclusion of the meeting.

Mrs. Malcolm Lawrence returned Tuesday from Memphis where she was with her father, Mr. M. A. Pinkerton, who underwent an operation at the Methodist Hospital.

Little Miss Carolyn Estes visited her grandmother, Mrs. Joe Stevens, in Jackson for a few days and her aunt, Miss Sarah Jacquelyn Stevens, returned to Grenada with her for a visit with Mr. and Mrs. J. N. Estes and family.

Miss Dorothy Whitaker entertained this week with a Coca-Cola party honoring Miss Dick Jones, who is visiting her aunt, Miss Lida Owens, before entering Belhaven College at Jackson.

Sam Simmons, Jr., left Sunday to resume his professional duties as assistant professor of commerce at Middle Georgia College, Cochran, Ga.

Mrs. Hattie Watkins of Oklahoma City, is visiting her sister, Mrs. T. E. Heath.

Mrs. Maggie Love, of Pasadena, Calif., and Mrs. T. F. Herring, of Memphis, are the guests of Mr. and Mrs. R. H. Herring.

Misses Vonnette Wilson, Mary Coleman, Nancy Nelson Granberry, Bettye Sherwood, Ann Neely, and Bonnie Bess Grant left this week for M. S. C. W., at Columbus.

Baker-Lester

Miss Edyth Louise Lester, of Casella, Miss., and Mr. James Vincent Baker, of Jackson, Miss., were quietly married July 27, 1938 in Charleston, Miss., by Justice of the Peace J. L. Burke. Mrs. Baker is the daughter of Mrs. Ellie Lester and is well known in Tallahatchie county and has many friends here. She is a student of Casella High School. Mr. Baker is the son of Mr. C. E. Baker, of Jackson, Miss., and a graduate of Central High School and won distinction as a football player.

They have just announced their wedding and their many friends wish them joy and happiness. They will make their home in Jackson.—Contributed.

Circle No. 4 Meets

With Mrs. John McEachin
Circle No. 4 of the Methodist W. M. S. met with Mrs. John McEachin Monday afternoon with eight members and three guests, Mrs. Atkinson, Mrs. J. W. Lipscomb, of Jackson, and Mrs. Louis Dubard, present.

Mrs. Sam Stanley was in charge of the devotional and Mrs. R. F. Matthews, circle leader, gave the lesson from the new study book, "The American City and Its Churches."

Cheese sandwiches, tuna sandwiches, fudge squares and Coca-Cola were served the guests at the conclusion of the meeting.

Circle No. 3 W. M. S.

Met With Mrs. R. E. Hall
Circle No. 3 of the Methodist W. M. S. met with Mrs. R. E. Hall Monday, September 12 with seven members present.

Mrs. Sam Irby led the devotionary and also acted as leader in the absence of Mrs. H. B. Spain. An interesting paper, written by Mrs. R. A. Clanton, was read to the society by Mrs. Irby.

After delicious refreshments were served the meeting was dismissed by Mrs. A. W. Stokes.

John Rundle, Jr., Frank Hays, Duval Proudfit, and Miss Frances Watkins left this week for Millsaps College in Jackson.

Misses Mary and Jean Bailey left Sunday for Cochran, Ga., where they will be students at Middle Georgia College, this winter.

Miss G. M. Miller left the first of the week for Columbia, Mo., where she will attend Stephens College this winter.

Mrs. George Worley and young son, Jack Dyre, spent the weekend in Grenada as the guests of Mr. and Mrs. Jack Dyre.

Circle No. 2 Met

With Mrs. W. R. Todd
Circle No. 2 of the Methodist W. M. S. met Monday afternoon with Mrs. W. R. Todd with seven present. After a short business session, Mrs. Ida Campbell gave the lesson from the new study book, "The American City and Its Churches."

Delicious ice cream and cake was served the guests at the conclusion of the meeting.

Little Miss Dorothy Ann Long, a precious three months old baby girl, arrived last week in the home of her parents, Mr. and Mrs. Richard Long. The many friends of this couple are rejoicing with them in their good fortune.

this store is headquarters for diamonds, watches, silverware, novelties and everything that pertains to a complete stock of jewelry.

Whether selecting jewelry for a wedding or birthday present, or any other occasion you will find that when you make your choice from the stock offered here you will not only be choosing in good taste, but will be selecting something that will give pleasure for years to come.

Taken all-in-all, this store is one of the modern and up-to-date establishments of this section that has always been known as one of the most reliable jewelry houses in this part of the state and the management has always insisted on giving their patrons the finest jewelry and gifts possible for the price charged.

DELTA DISTRIBUTING COMPANY

DISTRIBUTORS FOR THE FAMOUS AND EVER POPULAR BUDWEISER BEER

This reliable concern is located in Greenwood on Carrollton Ave., under the capable management of Mr. T. E. Henry, who has gone to much trouble to give the retailers of this section a prompt and efficient distributing service. Phone 302.

The unusual strength and purity of Budweiser beer is daily making advances in public preference. It holds a high place among physicians for use by their patients who are in need of a health-giving malt tonic and has proven highly beneficial for people suffering from failing appetite and run down physical condition.

By keeping a case or two of this famous beer in your ice box you can provide your family with an invigorating health drink that is good for both old and young.

This reliable distribution service offered by the Delta Distributing Co., saves the proprietors of taverns, hotels, restaurants and other places the trouble of ordering and shipping in beer from far away and unknown breweries, and is thus offering a reliable service to all concerned.

Any review of the Commercial Service of Greenwood would be incomplete without mention of this prominent concern and their popular beer. Most first class dealers will serve you with rich palatable Budweiser.

COOK'S TRANSFER AND STORAGE CO.

FOR A PROMPT AND RELIABLE TRANSFER AND DEPENDABLE STORAGE SERVICE

Located in Greenwood at 521 Lamar and features a leading and dependable service in moving and storing. Phone 661.

The storage facilities of this firm are modern, spacious and ideal for storing as every provision has been made to give ideal storage conditions at low rates and is of great convenience to those in need of a storage service.

The time was when household goods, stock and merchandise had to be moved by the steam roads, or by two-horse wagons.

Not so today. Cook's Transfer and Storage Co. operates large motor trucks with sufficient capacity to carry "Most Anything, Large or Small," which is transferred quickly and with perfect safety, thus the patrons are not

subjected by the delay and loss of time that they formerly were. There is no doubt that the development of the transfer business as operated here has been exceedingly beneficial to the public.

The trucks are of the most modern type with large capacity and the employees who operate them are especially skilled in their line of work.

We are pleased in this edition to call our readers attention to Cook's Transfer and Storage Co., and with whom you can trust goods.

Mr. J. S. Cook, the well-known proprietor of this firm has had wide and successful experience in this business and is able to serve you in a most satisfactory manner. We suggest that you get in touch with Cook's Transfer and Storage Co., when in need of any service of this nature.

FARMER'S STAPLE GIN COMPANY

ALWAYS POPULAR WITH THE COTTON GROWERS OF THIS AREA BECAUSE OF THEIR EFFECTIVE GINNING SERVICE

This modern gin is one of Louisiana's foremost dependable gin establishments and offers a complete and efficient service to all farmers and cotton growers in this area. Located in Greenwood on the Carrollton Road, under the capable management of Mr. R. L. Dunn, who has many friends in Grenada county. Phone 675.

This well directed firm is numbered among the prominent industries of this section. They have long and satisfactorily served cotton growers for miles around and have won wide public favor for their highly efficient service.

In its own field the Farmer's Staple Gin Co., occupies a position unquestioned as to leadership, both because of its successful record in public service and for its sound business policy of serving the greatest number at the least possible cost.

Thoroughly conversant with the conditions and a wide experience in the gin business the proprietor, Mr. R. L. Dunn has been able to render a service to the people in this line that is distinctly satisfactory.

This gin is not only well equipped and expertly operated, but renders a service that is necessary to the onward progress of the community.

They deal on a large scale and their activities are conducive to the progress and expansion of the community in no small degree.

The members of the Farmer's Staple Gin Co., will appreciate having you call and get acquainted. You are invited to stop in and inspect their fine gin at any time.

BARBER AUTO SUPPLY COMPANY

BARBER AUTO SUPPLY CO. — FOR A COMPLETE LINE OF HIGH GRADE USED PARTS FOR CARS, TRUCKS AND TRACTORS. ALL PARTS GUARANTEED TO FIT

This popular used auto parts establishment is located in Greenwood on the Carrollton Road and offers a real saving in high grade used parts. Phone 1303.

Mr. J. E. Barber, the well known proprietor, has gone to much trouble and expense to give the public the best of service possible.

Mr. Barber determined when he started in business to see that garages and dealers in this part of the state were given all the advantages of metropolitan auto parts service and there can be no question as to his success in doing so.

One of the most attractive features of the service is the fact that they have a large stock of auto supplies and parts of the highest grade on hand for the convenience

of their patrons and are thus prepared to serve all garages and dealers.

Mechanics and auto service men have found that they can always find standard auto parts here and a service that saves them time and money and they can depend upon the Barber Auto Supply Co. to have "What They Want" and that this concern is the only one that will keep "Good Quality at Reasonable Prices."

It will readily be seen that such a comprehensive line requires a large stock so that you are practically assured of getting just what you want.

This firm is of much benefit to garage men, motorists, dealers and farmers as it saves them much time when delays in getting parts elsewhere would be costly.

We are pleased to compliment Mr. Barber upon the efficiency of his service and predict that his business will continue to prosper and expand.

CRYSTAL GRILL

ONE OF GREENWOOD'S MOST POPULAR CAFES

This well known Cafe is located in Greenwood at 427 Carrollton Avenue, and is patronized by people throughout this area who appreciate the best of food at popular prices.

The service is highly satisfactory whether your party be large or small and your trade is appreciated. There are few places serving foods as attractively furnished in this part of the state as the Crystal Grill. There is not one which has attained a greater measure of popularity and the service and environment are more pleasantly satisfactory.

Located where parking accommodations are ample, it is a very popular place for people driving about to drop in. Private parties and special groups will receive the cheerful welcome extended to all visitors.

It is a pleasure to have such a modern and up-to-date eating place as this to refer the stranger as well as local people.

The management has made a special study of the business and consequently is striving to give the people just a little better all the time. They have arranged the place so that it is very attractive and insist that the service be kept prompt and courteous.

F. W. WOOLWORTH COMPANY

GREENWOOD'S ECONOMY SHOPPING CENTER

This fine store is devoted to supplying the many items needed in the home at prices that save patrons money. "A Large Stock at Small Prices" is the motto at Woolworth's. Located in Greenwood on Howard Street, under the able direction of Mr. Charles W. Gordon, who sees to it that you always get prompt and courteous service.

The public has long since learned not to judge this store's merchandise by the price it is sold for. By means of their collective buying power they are able to demand price concessions which are enormous and by passing these savings on to their customers they can sell at Woolworth's unusual

low prices. To detail the many and various lines they carry would be wholly impossible within this limited space.

Any community, large or small, is fortunate in possessing a Woolworth Store to economically supply the many necessities of home life and wearing apparel in such an abundant manner. This firm well deserves the generous patronage accorded it and we feel that it will continue to do so in the years to come.

In this Edition we hereby direct the attention of our readers to this well directed economy merchandising establishment as one of the important features of the commercial efficiency of this area.

NEW DEAL CANDY AND TOBACCO CO.

PROMINENT WHOLESALE DEALERS

This well known and reliable firm is located in Greenwood at 213 Main Street, under the capable direction of Mr. V. T. Cascio, who has many friends among the retail dealers of this section. Phone 21.

As recognized leaders in this commercial service, it is essential that they feature only the best grades and most popular, nationally advertised brands of candies and confectionery in their stock. They have long since won the confidence and consideration of dealers for miles around and have established a reputation for dependability of quality and superiority of service.

The volume of business transacted here does not permit their goods to become stale as their stocks move rapidly and are kept complete only by the daily receipt

of shipments direct from the manufacturers.

The New Deal Candy and Tobacco Co., has a host of patrons among the retail firms of this territory which is steadily increasing. This is attributable to their old and outstanding policy of filling all orders promptly and making prompt delivery of same.

This establishment is an important factor in the business and commercial life of this section, and well deserves the patronage of the people.

Mr. Cascio has wide experience in this business and his reputation for dependability and straightforward business methods places him in a high position in the estimation of the public.

We suggest that you get acquainted with this reliable firm, and try the quality products that they distribute.

ALICE CAFE

COMPLETELY AIR CONDITIONED

This popular Cafe specializes in Sea Foods and Delicious Steaks, and if you prefer the finest in foods we suggest that you stop in here on your next trip to Greenwood. Located at 117 West Market. Phone 565.

The Alice Cafe has gained a name that has spread over a wide area as a place where both the local and traveling public can well satisfy their demands in the matter of obtaining good foods. The menu consists not only of the staple food items, but many invit-

ing sea foods, chicken and steak dinners are offered to satisfy the taste of the most fastidious.

At the Alice Cafe our readers will find well cooked food, wholesome and deliciously appetizing. The service is equally satisfactory whether your order be large or small, and you will be made to feel that your trade is desired and appreciated by the management.

This Cafe is under the popular management of Messrs. George and Jim Davis, who are well known by many people of this vicinity.

PEPSI-COLA BOTTLING COMPANY

Distributors for the popular Pepsi-Cola and other delicious soft drinks.

In volume Pepsi-Cola is the second largest soft drink on the market—in quality, second to none.

There's nothing artificial in Pepsi-Cola; it contains 16 different ingredients and every one of these is pure, containing no substitutes. In New York City alone last year Pepsi-Cola exceeded in sale the most popular soft drink on the market by six million cases. This year the management of the firm has set a goal of 12 million cases and the prospects are bright for even exceeding that figure.

The Pepsi-Cola Bottling Co., is located in Greenwood at 513 Lamar, under the capable management of Mr. J. R. Nowlin, who has had wide experience in the bottling business. Phone 1101.

The plant is one of the most sanitary to be found and only the purest and most healthful ingredients are used in the process of manufacture. That satisfying taste found in Pepsi-Cola is the result of this wonderful process. The distinctive process by which their

product is prepared puts it in a class by itself; namely the aristocrat among beverages.

It will be found at the better soft drink parlors, confectionaries, stores, etc., and sold at 5c per bottle. Order a case or two for the family... it's fine for the kids!

Ice boxes in all the homes should be supplied with these healthful drinks at all times. In this way you are always prepared to serve your guests with the best on the market. Why experiment with brands that are of unknown or doubtful quality when such well known high quality drinks are sold at the same price. Order these and get the best!

Their bottling plant is a credit to Greenwood, and is open at all time to the public and you will find a warm welcome here.

It is deserving more than passing notice in this review as they are among the most popular producers of beverages in this section, their brands being standard in quality and so recognized by the trade for a radius of many miles.

OFFICIAL ORGAN OF GRENADA COUNTY AND CITY OF GRENADA

IN JUSTICE TO MEMBERS OF THE BOARD OF SUPERVISORS

In January 21 issue of The Sentinel we published in full the comments of the State Auditing Department on the audit of the records of Grenada county completed in June of last year and, in fairness to all members of the Board of Supervisors, some of whom were commended, we have extracted certain comments of the auditor out of this report and are quoting them below with our comments.

The report had this to say in regard to disbursements by the various districts:

DISTRICT ONE—

The average cost per mile of \$46.04 for District 1 does not appear to be excessive.

DISTRICT TWO—

District 2 has a favorable comparative cost per mile considering the equipment purchased during the five periods.

DISTRICT FIVE—

You will observe that for the two periods of this administration, maintenance costs of District 5 amounted to \$58.70 and \$66.24 respectively. During these two periods \$2,930.67 was expended for new equipment and, according to mileage submitted, approximately ten miles of road was constructed. With these facts in mind we feel that the present supervisor of this district deserves commendation for his efforts to conserve the county's resources and the manner in which claims for his district were filed.

It can be clearly seen from the above that no criticism, on the part of the auditors, was offered for the manner in which the supervisors of districts 1, 2 and 5 had made disbursements of county funds.

But on with our extracts:

DISTRICT THREE—

Only \$250.00 for equipment was expended by District 3 during the period under review, yet the average cost per mile for the district was \$87.96.

DISTRICT FOUR—

We are of the opinion that the average cost per mile of \$72.26 for District 4 is excessive, even though equipment amounting to \$6,878.62 was purchased during the period reviewed. Inasmuch as we are not familiar with the terra conditions of each district as one to another we offer no further comments except to state for eight consecutive months regular labor for District 4 was paid from the General Bridge Fund aggregating approximately \$1,500.00. This amount was not included in the calculation of the average cost per mile for District 4.

On page 23 is a schedule of exceptions taken to allowances authorized by C. H. Thomason, Supervisor, amounting to \$136.81, which amount was refunded by him upon presentation of this statement.

THE EXCEPTIONS—

Date of	Description	Bill No.	Amount
March 1937	On Account	105	\$50.00
April 1937	Hunting Coat	117	3.85
April 1937	Hunting Hat	117	1.00
April 1937	Casting	118	24.60
April 1937	Generator Cut-out	118	1.10
April 1937	Casing and Tube	118	11.70
April 1937	Casing and Tube	118	10.40
April 1937	Battery Cable	118	.75
April 1937	Light Bulbs	118	.80
April 1937	Casing and Tubes	118	24.26
April 1937	Water Pump	118	3.60
April 1937	Repair Starter	118	2.00
April 1937	Fan Belt	118	.75
April 1937	Charge Battery and Rent	118	2.00

Total \$136.81

Paid by Grenada County May 31st, 1937 \$118.64

Balance County liability to be paid \$18.17

All of the items listed above were paid out of Beat 4 Road Fund. All invoices and/or statements were approved by C. H. Thomason, Supervisor, Beat 4, yet, according to the records, none of purchases was actually made by Mr. Thomason. Just when Dick, Tom and Harry were given the legal authority to make purchases and have them charged to the county, we would like to know. Yet, Mr. Thomason approved these bills and they were paid by Grenada County. Yes, he repaid the county an amount equal to the total of the above exceptions, but only after an audit that cost the county \$1,747.00.

This is "monkey business" and transactions of this nature will continue as long as the taxpayers stand

idly by and say, "sick 'em tige, I'm wi'd you," and do nothing else.

District, County, City, State or Federal officials who have been guilty of misconduct in office should have impeachment proceedings filed against them. The matter should not be settled with resolutions. The county's bills are not settled in this manner. They are settled with taxpayers' money.

Gore Springs News

Mrs. Guy Fite is happy to have as her guest this week, her sister, Mrs. Fannie Clark, of near Sardis.

Miss Lucile McCormack, popular teacher, made a visit home Friday night and returned Sunday.

Mrs. A. P. Carroll and little son, of Senatobia, are visiting in the home of their parents and grandparents, Mr. and Mrs. F. E. Gillon.

Mr. and Mrs. Ira Harrison visited their parents, Mr. and Mrs. Joe Harrison Sunday.

On Opening of School

The total school enrollment exceeds the enrollment of a year ago by approximately 50 pupils.

An even 100 in the 7th grade this year. The largest ever.

Miss Halbert, Miss Elay, Miss Hines, and Miss Phillips are very proud of the improvements made in their rooms during vacation time. Other rooms are soon to receive like attention.

Mrs. Alexander is back at the old stand in the cafeteria, as hale, hearty and vigorous as ever.

In the high school Miss Owen is anxious to tell her history classes of her observations and experiences in Europe this summer.

The new pupils are an attractive and earnest group of boys and girls.

The pupils in Mr. Hathorn's room are proud of the tablet arm chairs that have replaced the old opera chairs.

Look out for Mr. Dollrahide and his band when they appear in their new maroon trousers with white stripes. How those boys and girls will strut!

The first football game is Friday, September 23, with Batesville. Let us have a rip, roaring good crowd.

A Message of Confidence

Day and night the signals* along the Illinois Central System send a message of confidence and cheer to those who man the trains.

These sentinels of safety stand guard unceasingly over millions of lives and billions of dollars in goods and property.

The service of the railroad—with its assurance of safety, its maintenance of speed and schedules—is in a large part the result of the trustworthy operation of these wayside signals and the intelligence and alertness of the men who read their meanings and translate them into action.

In all the operations of the railroad, safety comes first.

James
President

.. Grenada County Farm Page ..

Devoted to matters pertaining to farming, buying and selling farm products, and recipes for housewives.

Conserves

(By Lottie Wood, H. D. Agent)

The mixing of different fruits gives the delightful blended flavors of conserves and the nuts or raisins added to most of them give added calories as well as flavor.

Fruits which are bland in flavor are usually used as a filler or base with those that are stronger in taste added in smaller quantity. In Mississippi the hulls of muscadines or scuppernongs are often preserved or canned and used instead of raisins in recipes which call for raisins. This substitution is entirely practical and while the taste is not exactly the same it is very pleasant.

Better quality conserves are made if the fruits are cooked until tender before adding the sugar. This helps to keep the texture tender and the color bright. Therefore, canned fruits are successfully used in making conserves.

Many other combinations may be used than are given here, but they will suggest themselves to the thrifty housewife.

The heavier fruits are ground coarsely, grated or shredded before mixing with softer or pre-cooked fruits.

Some vegetables, as carrots and pumpkins, are prepared in combinations of this type. Always there should be some tart or acid fruit included to bring about the jelling of the conserve. Likewise one product rich in pectin must be included or the texture will not be good.

It is important that nuts be added after the cooking is almost completed, otherwise the oil would be extracted from the nuts and the texture weakened. However, the nuts should be heated long enough to destroy mold spores which might be on them. Usually the cooking time after nuts are added is five minutes. If jars have been heated with the tops, and

rubbers have been dipped in hot water, processing is unnecessary.

Grape Conserve

Separate pulp and skins. Put pulp on to heat in separate kettle. When soft, put through colander to remove seed. Add pulp to the skins, and measure. Cook together until skins are tender. For each cup of grapes, add a cup of sugar. Stir constantly until the syrup jells when dropped on a cool saucer. Add for each two cups of grapes one cup of chopped nuts. Remove from fire, and stir vigorously for five minutes. Pack into hot, clean jars. Seal and set on a rack in the water-bath. Pour boiling water in to cover tops of the jars. Allow to stand until water is cold. Remove, dry off jars, and store in a dark place.

Pear Conserve

4 c. grated or coarsely ground pears.

1 lemon (juice and grated rind)
1 c. seedless raisins chopped
½ c. chopped pecan meats
3¼ c. sugar.

Cook all ingredients except nuts together until thick and fruit is clear. Add nut meats, and continue cooking five minutes. Pack into clean, hot jars, and seal at once.

Pear-Muscadine Conserve

Peel and core hard pears. Grind with coarse plate of food chopper. For each quart of pears use one pint muscadine juice. Simmer together until pears are tender. Measure, and add an equal quantity of sugar. Cook rapidly until juice reaches jelly stage or 218 F. Add for each quart of the pear-muscadine mixture one cup broken nuts. Stir 5 minutes. Pour into hot, dry jars, and seal.

On Mississippi Farms

(By F. J. Hurst)

First subsidy payments on the 1937 cotton crop went to Mississippi farmers this week. The volume of payments which will total

\$13,265,000 is expected to increase rapidly with the flow of checks continuing through September, October and November. County agents will notify farmers when their checks are ready for delivery. The maximum amount of 1937 cotton on which a producer may receive payment is 60 percent of the base production established for his farm. The rate of payment on cotton sold before September 10 is the difference in the average price of 7/8 inch middling cotton on the 10 designated spot markets on the date of sale and 12 cents a pound, but in no case to exceed 3 cents a pound. The rate of payment on cotton sold after September 10 is 3 cents a pound.

More than 300,000 farm workers are busy in Mississippi cotton fields snatching the fleecy staple from the bolls while it is white and clean and before more rains and heavy dews damage it and lower its value. Farmers are learning that picking cotton clean and ginning it dry has lots to do with its value. Wet or green cotton should be dried before ginning.

Sweet potatoes can be made one of Mississippi's main cash crops if farmers will build curing houses, harvest the potatoes carefully, cure them properly and market them regularly. Correctly graded and neatly packaged potatoes find a ready market and bring higher prices.

Meat prices apparently reached their peak level for 1938 the middle of August. They are now on the way down.

Milk production per cow was at a nine-year high for August 1. Egg production per hen continued on August at a record high seasonal level.

Two of the biggest problems

connected with the lowering of costs of milk production are breeding and developing higher producing cows, and the production and feeding of more farm grown feeds, especially of good legume hay.

The Mississippi experiment station recommends the application of 100 pounds of superphosphate or 400 to 500 pounds of basic slag per acre under winter legumes on all land in hill counties before planting. This practice frequently results in doubling the growth of legumes and increases the yield of the following crop.

Farmers are offered \$1.50 per acre for seeding winter legumes and \$1.50 per acre for turning them under. Legumes protect the land from erosion, add nitrogen and humus to the soil, and increase the yields of crop that follow.

Effective methods and simple equipment for removing stains from clothing are described by Miss Ouida Midkiff, clothing specialist, in Extension Circular No. 99, just off the press. Copies of this publication are available upon request to county home demonstration agents or the State Extension Service.

Poorly Nourished Women — They Just Can't Hold Up

Are you getting proper nourishment from your food, and restful sleep? A poorly nourished body just can't hold up. And as for that run-down feeling, that nervous fatigue—don't neglect it!

Cardinal for lack of appetite, poor digestion and nervous fatigue, has been recommended by mothers to daughters—women to women—for over fifty years.

Try it! Thousands of women testify Cardal helped them. Of course, if it does not benefit YOU, consult a physician.

Mississippi Forest and Park News

State Wood-Using Plants Checked Jackson, Miss., Sept. 15—Mississippi operates 1,792 primary wood-using plants, the second largest producers in the southern forest territory, a survey conducted by the Southern Forest Experiment Station has revealed.

In a comprehensive compilation received by Fred B. Merrill, state forester, the state was shown with four different districts, with a total of 1,890 saw mills, operating with pine, hardwood and cypress.

In the non-lumber, primary wood-using plants, the state operates 11 treating plants, 18 veneer plants, 32 cooperage plants, 3 pulp, 31 handle and dimension stock plants, and in the pine distillation group, there are no destructive, 5 steam solvent and 2 in the miscellaneous group.

Alabama with six districts is the only state surpassing Mississippi, with a total of 2,347 plants.

The table also contains a breakdown of Arkansas, Florida, Georgia, Oklahoma, South Carolina and Texas. It is based on a count of primary wood-using plants made by a field survey of all plants having a daily capacity of at least 20,000 board feet.

Wayside News

The birthday party given by Miss Kathryn Hill in honor of Mrs. Buddie Hill Saturday night was well enjoyed by all who attended. Lots of old time games were played, and the guests were served about ten o'clock with all kinds of fruit, candies, cakes, sandwiches, and tea.

Very sorry that we have several on the sick list. Our prayers are that they will soon be O. K.

Mrs. J. C. Hill visited her daughter and family, Mrs. George

Martin, of near Grenada, last week.

Mr. and Mrs. Doc Tribble were dinner guests of Mr. J. M. Wallace, daughter, Winnie, and granddaughter, Nancy, last Sunday.

Mr. Everett Tribble was at home last week-end. He is attending school at Senatobia.

Miss Kathryn Hill and brother,

J. B. were happy visitors of Miss Ruth Hunt of near Oakland last Sunday.

Mr. and Mrs. Tom Fields, with Mr. and Mrs. John Tribble attended the association at Bethel last Wednesday.

Grenada to Have Lighted Field

It has finally been decided that Grenada is to have a lighted athletic field and the committee appointed to raise the money for this purpose has been actively engaged in this work this week.

The lights are to be installed at the Grenada Fair Grounds and when the installation is completed this community will be provided with a recreational center for night activities. The field will not only be used for night football, but will be available for night baseball, softball, horse shows and other forms of recreation.

Those wishing to donate to this

cause are urged to send your contributions to Mr. L. C. Proby, secretary, Grenada County Chamber of Commerce. The City made the initial contribution, \$250.00, and the committee has set out to raise an additional \$950.00.

Fairs To Be Held In Near Future

(By J. S. Vandiver)
During the next few weeks community, county, district, and state

**MOST "TROUBLES" NEVER HAPPEN**

YOUR VOICE, when it takes a trip by telephone, travels over a delicately balanced and highly complex electrical system. Hundreds of things could happen to break up your voice's path. Most of them never do. These potential "troubles" rarely materialize because the men who direct and operate your telephone system have not been satisfied merely to repair damage after it has taken place. They have demanded that weak spots be sought out and corrected beforehand. All the nineteen thousand Southern Bell employees, in one way or another, join in this effort.

Subscribers' lines are checked periodically from the local testboards. The intricate equipment in the central office is tested constantly, particularly the relays and contacts. Emergency power supplies are provided.

Underground cables are filled with gas to detect leaks in the cable sheath. Aerial cables are checked, open wire lines are patrolled, to stop the "breaks" before they occur.

Men and money are required to do this never-ending job of "preventive maintenance," but the work is in keeping with the Bell System's aim to give you a telephone service that "is more and more free from errors, imperfections and delays."

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
INCORPORATED

fairs will be held. These fairs may be used to a very great advantage as a teaching device and the teachers should take the lead in organizing, planning, and staging a good program for these fairs.

Leadership and cooperation are two of the greatest needs of the people of our state and both of these may be developed by participation in the fair, they are of great educational value to the public.

The interested visitor finds out what his neighbor is doing and is thereby better enabled to improve some of his practices which will result in increasing his income and improvement of his home and community life.

We wish to congratulate the people of each community and the leaders of these fairs and extend to them our most hearty cooperation in making these fairs a real success in every community where they are held.

UNITED STATES CIVIL SERVICE EXAMINATION

The United States Civil Service Commission announces an open competitive examination for filling the position of ELECTROPLATER, \$6.86, \$7.34, \$7.82 per diem, no allowances, in the U. S. Navy Yard, Charleston, S. C., for which the receipt of applications closes

October 6, 1938. Applications must be on file with the Recorder, Board of Labor Employment, U. S. Navy Yard, Charleston, S. C. on or before that date.

Applicants must have reached their 30th birthday but must not have passed their 48th birthday on the closing date for receipt of applications. These age limits do not apply to persons granted preference because of military or naval service. They must show that they have completed a regular four-year apprenticeship as electroplater or have had four years of practical experience as electroplater the substantial equivalent of such apprenticeship.

Full further information and application blanks may be obtained from the Secretary, Board of U. S. Civil Service Examiners, this city; the Recorder, Board of Labor Employment, U. S. Navy Yard, Charleston, S. C.; or the Manager Fifth U. S. Civil Service District, New Post Office Bldg., Atlanta, Ga.

CIVIL SERVICE EXAMINATION ANNOUNCED

The United States Civil Service Commission has announced an open competitive examination for the positions below.

Senior Stenographer, \$1,620 a year, Junior Stenographer, \$1,440

a year, Senior Typist, \$1,440 a year, Junior Typist, \$1,360 a year, for appointment in Washington, D. C., only. Applicants must have reached their 18th but must not have passed their 53rd birthday.

Closing dates for receipt of applications for this examination are: October 3 from States east of Colorado, and October 6 from Colorado and States westward.

Full information may be obtained from E. R. Proudft, Secretary

of the U. S. Civil Service Board of Examiners, at the post office in this city.

**BUY NOW!**

Water must continually pass over the mill to keep it running! This is a physical fact. By the same reasoning, money must continually flow thru commercial channels to keep business going. The dollar that you spend today does more than help you and the person with whom it is spent. It helps the distributor—the manufacturer—and the producer of raw materials. Part of it goes for taxes to help the schools. Part of it is paid for labor. Through BUYING now you can contribute much toward the progress of your city—your state—and the nation. You can help increase the flow of money in business channels and in this way can help to bring about an era of real prosperity. And remember that you will profit by the prosperity that you assist in creating! HELP YOURSELF—HELP OTHERS BY BUYING NOW!
